

About the Role

We are looking for enthusiastic engineering graduates interested in building a career in Site Reliability Engineering (SRE), Cloud Operations, and DevOps. Interns will gain hands-on experience in Linux, cloud technologies, monitoring, automation, and production support. Successful interns will be considered for a full-time **Junior Site Reliability Engineer (Junior SRE)** role.

Eligibility Criteria

- B.E./B.Tech. in Computer Science, Information Technology, Electronics & Communication, or related disciplines.
- Minimum **60% throughout academics** (10th, 12th, and Graduation).
- No active backlogs.

Must-Have Technical Skills

- **Linux Fundamentals:** Command line, file systems, users, permissions, processes, troubleshooting.
- **Networking Fundamentals:** TCP/IP, DNS, HTTP/HTTPS, SSH, IP addressing, subnetting, OSI model.
- **Operating Systems:** Processes, threads, memory management, system performance basics.
- **Cloud Fundamentals:** Basic understanding of AWS/Azure/GCP, VMs, storage, networking, IAM.
- **Scripting & Automation:** Basic Bash or Python scripting.
- **Version Control:** Git fundamentals (repository, commit, push/pull).
- **Monitoring Concepts:** Logs, metrics, alerts, observability basics.
- **Database Basics:** SQL queries, CRUD operations, joins.

Must-Have Soft Skills

- Strong analytical and troubleshooting skills.
- Good verbal and written communication.
- Learning mindset and teamwork.
- Ownership and accountability.
- Willingness to work in rotational shifts and a 24x7 NOC environment.

Good-to-Have Skills

- AWS Cloud Practitioner or equivalent certifications.
- Docker and Kubernetes fundamentals.
- GitHub projects or Linux home lab experience.
- Exposure to Grafana, Prometheus, ELK.
- CI/CD concepts (GitHub Actions, Jenkins, GitLab CI).
- Terraform and Infrastructure as Code basics.

Key Responsibilities

- Monitor and support production systems.
- Troubleshoot infrastructure and application issues.
- Work with Linux, cloud, and automation tools.
- Analyze logs, metrics, and alerts.
- Participate in incident management and operational support.
- Collaborate with engineering teams and maintain documentation.

Post-Internship Opportunity

Successful interns will be offered a full-time position as **Junior Site Reliability Engineer (Junior SRE)** based on performance and business requirements.

Selection Process

1. Assessment
2. Technical Discussion
3. 1-1 Discussion
4. Offer Rollout

Internship Duration: 6 Months

Full-Time Role: Junior Site Reliability Engineer (Junior SRE) upon successful completion of the internship.
